

Dr. Daniel Waggoner

Home: 1052 Clifton Road, NE
Atlanta, Georgia 30307
voice: (404) 373-6340
e-mail: daniel@danielwaggoner.net

Education:

Georgia State University, April 1994 - August 1995
M. S. in Finance - August 1995
Winner Atlanta Society of Financial Analysts Book Prize - 1995

University of Kentucky, September 1980 - August 1985
Ph.D. in Mathematics - August 1985
Area of specialization - Algebraic Topology
M. A. in Mathematics - May 1983
Awarded Graduate School Fellowship 1980 through 1983

University of Mississippi, September 1976 - May 1980
B. S. in Mathematics, Cum Laude - May 1980
Winner Alfred Hume Mathematics Prize - 1980

Work Experience:

Federal Reserve Bank of Atlanta

Research Economist and Senior Advisor, September 2020-August 2022
Research Economist and Policy Advisor, April 2013-August 2020
Research Economist and Associate Policy Advisor, September 2006-March 2013
Research Economist and Assistant Policy Advisor, January 2001 August 2006
Economist II, March 2000 - January 2001
Economist I, September 1997 - February 2000
Senior Economic Analyst, August 1996 - September 1997
Economic Analyst, August 1995 - August 1996
Produce high-quality economic research as evidenced by acceptance in peer reviewed academic journals. Contribute to the research environment of the Department. Provide analysis of economic issues in support of FOME preparations and other system policy activities.

Software Consultant, Computer Technology International, May 1993 - July 1995.

Responsible for the maintenance of existing code, the porting of existing code to different environments, and the development of new software projects. CTI produces scheduling software for the transportation industry.

Assistant Professor of Mathematics, Agnes Scott College, August 1987 - May 1994. Taught a wide range of undergraduate mathematics and computer science courses. Developed and implemented classroom software. Research interest focused on problems in dynamical systems, algebraic topology, and mathematical pedagogy. Administrative duties included assisting in the development of department curriculum and service on college committees.

Visiting Assistant Professor of Mathematics, Lehigh University, August 1985 - May 1987. Taught undergraduate calculus courses and graduate topology courses.

Teaching Assistant, University of Kentucky, September 1983 - December 1984. Taught introductory mathematics courses.

Quantitative Skills:

Advanced programming skills and familiarity with the C, C++, Assembly, FORTRAN, Pascal, and BASIC programming languages and the Windows, DOS and UNIX operating systems. Extensive experience in numeric programming, including non-linear optimization, dynamical systems, Monte Carlo simulation, and large-scale problems. Developed user-friendly, graphical Windows interfaces.

Strong pure and applied mathematical background. Graduate level course work in topology, algebra, analysis, differential equations, numerical analysis, probability, stochastic processes, and econometrics. This grounding allows me to approach problems both analytically and numerically and to assimilate quickly and apply appropriately new quantitative techniques.

My background in mathematics, computer science, and finance, together with my teaching experience, enables me to convey complex technical ideas to a wide array of audiences. I am comfortable in both formal presentations and informal discussions.
